

Manufacturing Technologies

Table of Contents

Preliminary Challenge	
Family Ties.....	5
Investigate Materials and Processes	
Primary Challenge	
One “Clean” Machine	15
Design and Build a Vending Machine	
Learning Cycle One	
Under Pressure	21
<i>Exploration</i> - Analyze Quality, Collect Data, and Explore Design Factors	
<i>Engagement</i> - Determine Soap Type and Design Soap Container	
Learning Cycle Two	
As Good as it Gets	43
<i>Exploration</i> - Analyze Quality Control Methods and Production Costs	
<i>Engagement</i> - Apply Exploration Concepts to Soap Vending Machine Design	
Learning Cycle Three	
Looping Through Design	63
<i>Exploration</i> - Analyze Flashlight Design	
<i>Engagement</i> - Develop a Flashlight Assembly Line	
Learning Cycle Four	
In Control	85
<i>Exploration</i> - Analyze Control Systems	
<i>Engagement</i> - Build and Manipulate a Servo Motor System	
Learning Cycle Five	
Making Sense of it All	105
<i>Exploration I</i> - Explore Different Sensors	
<i>Exploration II</i> - Construct an Input-Output Sensor Circuit	
<i>Engagement</i> - Solve a Manufacturing Problem Using Sensors	
Learning Cycle Six	
It’s NOT a Relay Race	129
<i>Exploration</i> - Explore Relays and Design a Relay System	
<i>Engagement</i> - Use a Dip Relay to Control a Solenoid Valve	

Construction Technologies

Table of Contents

Preliminary Challenge	
Home Sweet Home	5
Design a Custom Family Home for a Client	
Primary Challenge	
If You Build It...	10
Design and Propose a Planned Unit Development	
Learning Cycle One	
The Incredible Shrinking Design	17
<i>Exploration</i> - Create a Multi-View Scaled Drawing	
<i>Engagement</i> - Design and Build a Scale Model of a Welcome Sign	
Learning Cycle Two	
Community Architecture	35
<i>Exploration</i> - Investigate Physical Characteristics of a Community	
<i>Engagement</i> - Develop a Neighborhood Improvement Plan	
Learning Cycle Three	
The Web We Weave	47
<i>Exploration I</i> - Explore Water Distribution Systems	
<i>Exploration II</i> - Solve a School's Problematic Parking System	
<i>Engagement</i> - Propose a Zoning and Development Plan for Land	
Learning Cycle Four	
There's No Place Like Home	65
<i>Exploration</i> - Design Floor Plans for a Unit Using Bubble Plans	
<i>Engagement</i> - Build a Life-Size or Scaled Section of a House	
Learning Cycle Five	
Seeing Green	81
<i>Exploration</i> - Research LEED-NC Certification	
<i>Engagement</i> - Fabricate an Optimum Value Engineering Technique	

Energy and Power Technologies

Table of Contents

Preliminary Challenge	
The Basics and Beyond.....	5
Construct a Hero Engine, a Stirling Engine, a Solar-Powered Fan, a Wind Generator, and a Battery	
Primary Challenge	
Providing Power to Rural Areas	29
Design and Build a Hydroelectric Power Generator	
Learning Cycle One	
Energy and Power, So What?	33
<i>Exploration</i> - Create a Time-line of Energy Resource Development	
<i>Engagement</i> - Build a Simple Electric Generator	
Learning Cycle Two	
Electronics in Our Lives	49
<i>Exploration</i> - Analyze Resistors, Capacitors, Diodes, Transistors, and Transformers in a Circuit	
<i>Engagement</i> - Build a Siren	
Learning Cycle Three	
Mechanical Devices in our Lives	91
<i>Exploration I</i> - Build a Simple Machine	
<i>Exploration II</i> - Design a Boat	
<i>Engagement</i> - Build an Aqueduct	

Transportation Technologies

Table of Contents

Preliminary Challenge	
Pieces of the Puzzle	5
Research Modes of Transportation	
Primary Challenge	
It's A-Drought Time	11
Design and Build a Vehicle to Transport Water	
Learning Cycle One	
The Right Fit	19
<i>Exploration</i> - Investigate <i>Primary Challenge</i> Client Nations	
<i>Engagement</i> – Design and Build a Technologically Appropriate Device	
Learning Cycle Two	
Plotting the Course	31
<i>Exploration I</i> – Calculate Distance Using Mathematics	
<i>Exploration II</i> – Construct a Transit	
<i>Engagement</i> – Determine the Accuracy of Your Transit	
Learning Cycle Three	
Safety First	45
<i>Exploration I</i> – Research Vehicle Safety	
<i>Exploration II</i> – Construct Suspension Systems	
<i>Engagement</i> – Design, Test, and Analyze a Vehicle's Suspension System	
Learning Cycle Four	
Out of Control	63
<i>Exploration I</i> – Research Braking Systems	
<i>Exploration II</i> – Manipulate Linkage Configurations	
<i>Engagement</i> – Design and Build a Carriage System	
Learning Cycle Five	
Ready, Set, Go!	81
<i>Exploration I</i> – Conduct a Torque Experiment	
<i>Exploration II</i> – Experiment with Gears and Gear Configurations	
<i>Engagement</i> – Design and Build a Vehicle to Pull With the Greatest Force
