

# Table of Contents

<b>Acknowledgements</b> .....	vii
<b>Preface</b> .....	ix
Engineering byDesign™ – A Standards-Based Approach .....	ix
Technology for All Americans: A Rationale and Structure for the Study of Technology .....	ix
Standards for Technological Literacy: Content for the Study of Technology .....	x
Advancing Excellence in Technological Literacy: Student Assessment, Professional Development, and Program Standards .....	xi
Advancing Technological Literacy: ITEA Professional Series .....	xi
The Center to Advance the Teaching of Technology and Science: ITEA-CATTS .....	xii
Pathways and Career Clusters .....	xiii
Using This Guide .....	xiii
<b>Introduction – Engineering byDesign™: Model Program</b> .....	1
Introduction .....	2
The Vision – Engineering byDesign™ .....	3
The Mission – Engineering byDesign™ .....	3
The Organizing Principles .....	3
Program Descriptions .....	3
Engineering byDesign™: District/State Level Description .....	4
Engineering byDesign™: Student-Oriented Program Description for Registration Booklets .....	4
Course Descriptions .....	5
Grades K-2 .....	5
Grades 3-5 .....	5
Exploring Technology .....	6
Invention and Innovation .....	6
Foundations of Technology .....	7
Technological Issues .....	8
Impacts of Technology .....	9
Engineering Design .....	10
<b>Overview: Technological Systems</b> .....	11
Course Overview .....	12
Rationale .....	12
What is Technology? .....	14
A Rationale for the Study of Technology .....	14
A Rationale for Studying Technology as a System .....	14
The Importance of the Big Ideas .....	14
Technological Systems – Core Concepts of Technology .....	15
Curriculum Guide Structure .....	16
<b>Assessment</b> .....	17
Course Assessment .....	18
Formative Assessment .....	19
Planning for Classroom Assessment .....	20
Understanding Who the Users Are .....	20
End-of-Course Assessment Rubric .....	22

<b>Unit 1: Definition of a System</b> .....	23
STL Standards Addressed in Unit 1 .....	24
Student Learning Experiences .....	24
Big Idea .....	24
Acceptable Evidence of Student Understanding .....	24
Student Assessment Criteria – What is a System? .....	25
Overview .....	25
Narrative .....	25
Teacher Preparation .....	27
Enduring Experiences .....	27
Student Learning Activities:	
Lesson 1: Mechanical System – Pencil Sharpener .....	28
Lesson 2: Electrical System – Electrical Circuit .....	31
Lesson 3: Fluid-Power System – Fluid-Powered Lever .....	38
<b>Unit 2: Systems Interaction</b> .....	45
STL Standards Addressed in Unit 2 .....	46
Student Learning Experiences .....	46
Big Idea .....	46
Acceptable Evidence of Student Understanding .....	46
Student Assessment Criteria – How Systems Work .....	47
Overview .....	47
Narrative .....	47
Teacher Preparation .....	48
Enduring Experiences .....	48
Student Learning Activities:	
Lesson 1: How Things Work .....	50
Lesson 2: Keep it Running .....	54
Lesson 3: Building a Continuity Tester .....	58
Lesson 4: Designing a Structural System .....	64
<b>Unit 3: Systems Evolution</b> .....	71
STL Standards Addressed in Unit 3 .....	72
Student Learning Experiences .....	72
Big Idea .....	72
Acceptable Evidence of Student Understanding .....	72
Student Assessment Criteria – How Systems Evolve .....	73
Overview .....	74
Narrative .....	74
Teacher Preparation .....	74
Enduring Experiences .....	74
Student Learning Activities:	
Lesson 1: Mix and Match .....	76
Lesson 2: Inventing the Telegraph .....	80
Lesson 3: Innovating the Telegraph – Building a Fax Machine .....	88
<b>Unit 4: Systems Adjustments</b> .....	95
STL Standards Addressed in Unit 4 .....	96
Student Learning Experiences .....	96
Big Idea .....	96
Acceptable Evidence of Student Understanding .....	96
Student Assessment Criteria – Modifying Systems .....	97
Overview .....	98
Narrative .....	98

Teacher Preparation .....	98
Enduring Experiences .....	98
Student Learning Activities:	
Lesson 1: Piloting an Airplane .....	100
Lesson 2: Calibrating a Catapult .....	106
<b>Unit 5: Systems Failure</b> .....	<b>113</b>
STL Standards Addressed in Unit 5 .....	114
Big Idea .....	114
Student Learning Experiences .....	114
Acceptable Evidence of Student Understanding .....	114
Student Assessment Criteria – Correcting Systems Failures .....	115
Overview .....	116
Narrative .....	116
Enduring Experiences .....	116
Student Learning Activities:	
Lesson 1: Hydraulic Brake .....	117
Lesson 2: What’s Broken Now? .....	122
<b>Unit 6: System Trends</b> .....	<b>125</b>
STL Standards Addressed in Unit 6 .....	126
Big Idea .....	126
Student Learning Experiences .....	126
Acceptable Evidence of Student Understanding .....	126
Student Assessment Criteria – Systems in the Future .....	127
Overview .....	128
Narrative .....	128
Enduring Experiences .....	128
Student Learning Activities:	
Lesson 1: Let’s Take Some Pictures .....	129
Lesson 2: You Used to do it How? .....	136
<b>Appendices</b> .....	<b>139</b>
A. Program Responsibility Matrix – Technology/Mathematics/Science .....	140
B. References .....	149
C. Glossaries .....	150
